» PROFILE

- As an entry-level developer with experience in utilizing typescript and javascript, I have used tools like React.js to develop websites. I am passionate about front-end development.

» PROJECT EXPERIENCE

COFFEE-SHOP | CODING PROJECT

- An e-commerce responsive website where customers can order and pay by cash or scan a QR code and can sign in to the website via Line using LINE Front-end Framework
- Creating website using typescript and using framework with react.js and design with tailwind.css and do responsive website

Demo : <https://shopping-cart-v1-delta.vercel.app/>

POKEMON | CODING PROJECT

- This project is about displaying information about various characters in Pokemon and importing data from API.
- Create a website using typescript and a framework with react.js and design and do a responsive website with SCSS and tailwind.css. Using state management as zustand and Fetching Data from API with Axios.

Demo : <https://pokemon-beige-three.vercel.app/>

TIC-TAC-TOE | CODING PROJECT

- Tic-Tac-Toe-web-application
- Tables can be specified within the range of 3X3 to 10X10 and can be played by 1 to 2 players. Create a dynamic game with javascript and using react.js as framework.
- Design and responsive with Css3 and Tailwind.css.

Demo : <https://tic-tac-toe-eta-sandy.vercel.app/>
